NOTE.—The estimates of population shown in the following table have been based primarily on the 1931 Census returns (*see* Section "Population" in Text). An * denotes change in boundary during the year, and the population has, in each case, been adjusted in order to make it comparable with the records of births and deaths. The mid-year population of these areas, as constituted after change in boundary, will be found in Appendix (iii). The births and deaths exclude still births. Deaths are transferred to the area of residence of the deceased person; births occurring away from home have been transferred to the area of residence of the mother. Deaths of non-civilians are included throughout this table.
